

Pre-Teen Camp

TEEN STAFF CONTRACT

Revised: 25 March 2003

I acknowledge that it is an awesome responsibility to serve in the position of role model to those younger than myself, and I pledge faithfully to present myself totally, during this Pre-Teen Camp, to live as a good example of my Christian faith.

I _____ do agree to abide by the following policies of the Fort Sam Houston Chapel program, and do so willingly. I understand that should I choose to disregard this agreement at any time during the camp, my contract may be immediately voided and I may be asked to remove myself from the camp at my/my parents expense.

I will, at all times, present myself in a positive way. This means that I will not complain in the presence of the campers, that I will be cheerful, that I will participate in camp activities whether or not I would normally participate in those same things, that I will assume responsibility for my own actions, that I will not engage in gossip and rumors, and that I will put the needs of my campers before those of myself.

I will remember that I am a teen staffer and not the camper. This means that I will not enter into any relationship with a camper that is not becoming of one in a role of leadership. This means that I will not buddy up with other Teen staffers not in my family group. I am at camp to assist the counselor.

I will not use any drugs during the course of the camp. This includes alcohol, tobacco products, unauthorized pills and medications, paint products, and other controlled substances. Prescribed medications and across-the-counter medications, such as Tylenol, and allergy and cold products, are permissible.

I will practice good physical hygiene and will see that my campers do also.

I will be in bed NO LATER THAN 1 A.M. (Counselor "Free Time" will be from time campers are in bed to 1 A.M.) I realize that being responsible for campers 24 hours a day is a tiring endeavor and that I must have sufficient rest if I am to function in a positive way.

I recognize that, although I am at the Camp to have an enjoyable time, the primary goal is to see that the campers have a good experience and I will truly seek to always work toward seeing that this happens.
